Email: montefioreinfo@spirehealthcare.com

**One-off private treatment enquiries**
Tel: 01273 828 148
Email: montefioreinfo@spirehealthcare.com

**Diagnostic enquiries and bookings**
Tel: 01273 828 088
Email: montefiorediagnostics@spirehealthcare.com

**Booking enquiries**
Tel: 01273 828 030
Email: montefiorebooking@spirehealthcare.com
At Spire Healthcare we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently achieve excellent results. For us it’s more than just treating patients, it’s about looking after people.

To see a consultant at The Montefiore Hospital:
Call 01273 828 030
Fax 01273 828 130
Email spire.montefiorebookings@nhs.net

A referral letter is usually required from you before any patient, whether they are insured or self-funding, can be seen by a consultant. Self-funding patients may be able to self-refer for cosmetic surgery and some minor treatments. Please contact us for further details.

Insured patients
Scheme/policy details are required at the time of booking so that we can obtain pre-authorisation for their treatment.

Self-funding patients
We provide a tailored fixed price* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For information call 01273 828 148.

NHS patients
The Montefiore Hospital is accredited to provide elective surgical services to NHS patients across a range of specialties. Our aim is to make the referral process as quick and easy as possible. You can use the NHS e-Referral system www.ebs.ncrs.nhs.uk to refer your patients to us or alternatively, you can refer by letter or fax (please state that the referral is NHS and provide recent relevant medical history).

Emergency admissions
Call 01273 828 120 and ask for the nurse in charge. We’ll aim to call you back within 20 minutes to update you on the progress of the admission. The hospital does not have an accident and emergency facility.

Full profiles for each consultant can be found at www.spiremontefiore.com

* Please see a copy of Spire’s patient terms and conditions for full detail. Prices vary per treatment and are dependent on each patient’s individual circumstances and needs.
Insurance isn’t the only way to access life-enhancing private treatment. By paying for yourself with any one of our 38 award-winning hospitals, you can be in skilled and caring hands almost straight away.

At Spire Healthcare, our expert consultants and dedicated nursing team have, for nearly 40 years, been looking after people – whether that’s helping someone to walk again, battle cancer or restoring someone’s sense of self through cosmetic surgery.

We cover everything from health screening and checks, to acute and minor surgery through to professional recovery and rehabilitation.

Once you’ve selected the best professional for you and decided on your treatment, we’ll provide you with a single, fixed price* so there are no surprises – and you can be considered for interest free finance.**

We’re here to help you with making these important choices, so you’re free to concentrate on getting back to being you.

*Read Spire’s terms and conditions online or call to find out what’s included and excluded in your fixed price treatment.
**Zebra Finance Ltd trading as Zebra Health Finance, Lincoln House, Stephensons Way, Wyvern Business Park, Derby, DE21 6LY.

www.spiremontefiore.com

Looking after you.
When is it appropriate to tell your patients about private self-pay treatment?

These are the occasions when it may be appropriate to talk to your patients about one-off, self-pay treatment.

- When a patient wants to be seen and treated quickly.
- When a patient is concerned about cleanliness and clinical outcomes.
- When a patient does not meet the criteria for NHS treatment.
- When you and your patient want to choose the consultant they see.

Arranging fast private treatment
Your patient is guaranteed fast access to some of the latest facilities and diagnostic services – generally within a week of referral. If subsequent treatment is required this can usually be completed within a few weeks.

No referral criteria thresholds
Referral into the NHS isn't always possible. At Spire Healthcare we don't have referral thresholds – so your patient can quickly access consultant appointments and diagnostic facilities including MRI and CT scans.

Low infection risk
Spire Healthcare was the first private hospital provider to publish clinical performance and patient reported outcomes together on their website, including information on rates of MRSA bacteraemia and Clostridium Difficile infection.

Visit [www.spirehealthcare.com](http://www.spirehealthcare.com) for more information.

Comfortable surroundings
At The Montefiore Hospital patients have their own private room with en-suite shower. We offer a range of appetising meals, all prepared by our on-site chef, and delivered to their room. Visitors are welcome whenever your patient wishes.

Choose your patient’s consultant
Demand the best for your patients and choose the consultant you want them to see. Your patient will see the same consultant at every appointment and that consultant will be in full charge of their care with the support of our 24-hour resident doctor and experienced nursing team.

Fixed price treatment
After the initial consultation with your chosen consultant, we'll provide an inclusive, fixed price* for all treatment. We also offer patients access to interest free finance (0% APR representative) and interest bearing loans.
